There's a girl in town calling my name
She says I put her down and I'm the one to blame
Well I broke her heart and left her here to cry
And I know that girl is telling me a lie
She says I left and took back my ring
I don't remember a God-darn thing

Amnesia, amnesia, amnesia
Baby what I do?

I used to like to run around
My reputation was going down
Spent my money like it was out of style
I wouldn't even give my gal a smile
She says I left and took back my ring
I really don't remember a thing

Chorus

Guitar lead

Chorus

I used to like to run around
With every little girl in this town
Well I spent my money like it was out of style
I wouldn't even give my gal a smile
She says she wants me to come on home
I wish the girl would just leave me alone

Chorus
