### "Blind Faith"

Deep inside I've been force-fed lies  
And only lead astray  
I've been nailed to the wheel  
And left behind and only cast away

Now you can never break me  
Never take me  
The lines that crack my face are real... blind

Blind... my obsession drifts away  
My obsession is my blind faith  
My obsession drifts away  
It is only my blind faith

Abuse is the name of the ghost I ride  
And I'm battered and not broke in  
I've survived it all and never crawled  
To rise back up in the end

Now you can never break me  
Never take me  
The lines that crack my face are real... blind

Blind... my obsession drifts away  
My obsession is my blind faith  
My obsession drifts away  
It is only my blind faith
