

## Face Down "Break"

Visit "[Break](#)" on MotoLyrics.com

So long I wish you well  
Where I am going you cannot follow  
I can feel them trying to change who I am  
I can feel I can feel  
I can feel them trying to break my will  
I will not come back  
But I still mourn  
The death of a life  
My life reborn  
I can feel I'm changing  
From me  
So long I wish you well  
Where I'm going you cannot follow

Temporary visit to see the sights of hell  
I will not come back  
But I still mourn  
The death of a life  
My life reborn  
I say just fuck 'em all
