I know no pain inside my shrine
The world grows cold I lose my mind
The wounds inside that just won't heal
The pain now grows I learn to feel

Look in my soul you'll see it's true
Look in my soul I live in you
Look in my soul and see my eyes... look in my soul

Release me - I will rise
Release me - I can't die
Release me - now set free
Release me... release me

Release me - I can't die
Release me - I can't die

I know the wounds that bleed in me
The scare is there for all to see
I feel the rage inside my mind
To crush the world and rise in time

Look in my soul you'll see it's true
Look in my soul I live in you
Look in my soul and see my eyes... look in my soul

Release me - I will rise
Release me - I can't die
Release me - now set free
Release me... release me

Release me - I can't die
Release me - I can't die

Bull... dog
