Close your eyes and try to get to sleep now  
Don't you make a peep now  
We hear everything  
Shut the door and make it clean and neat now  
You've been so discreet now  
We've seen everything  
Inside your heart of hearts you know

Pick yourself up off the floor and stand now  
Wash away your sin now  
You've got everything  
Inside your heart of hearts you know  
Will you choose to hid it in your soul?

If it's wrong  
And I'm feeling so indifferent  
I might be in danger of myself

Shut your mouth and get yourself to sleep now  
Don't let then hear you weep now  
You've got everything  
Inside your heart of hearts you know  
Will you choose to hide it in your soul?
