Inhibition and indecision
Do you realize it's all the same
Cowardice, prejudice
Do you realize it's all the same

Liberty, poverty
Do you realize it's all the same
Angelize, and generalize
Do you realize that it's all the same
That it's all the same
That it's all the same..so

I don't wanna feel this pain
I don't wanna feel this pain
Everyday I see these same four walls that keep me
here
And I wanna change the things that hurt
And I wanna end this constant fear

So I say
I don't wanna feel this pain

Inhibition and indecision
Do you realize it's all the same
Tell the lies (tell the lies) , socialize (socialize)
Do you realize that it never ends
That it never ends

Everyday I see these same four walls that keep me
here
And I wanna change the things that hurt
And I wanna end this constant fear
So I say
I don't wanna feel this pain
