(Verse)

With the push and shove, that's how it's done,
Leave me
Better yet from the barrel of a gun
But it's needed

(Pre-Chorus)

We can be everything
To everyone it seems like
This paper tiger's showing teeth

(Chorus)

Don't believe you'll fear it now
Don't be fooled by your own eyes
Well even death is on our side
Don't get more, we'll rise in time

(Verse)

They can hear it rangle in the day
Leave me
Once a part of the hours getting break
Completed

(Pre-Chorus)

We can be everything
To everyone it seems like
This paper tiger's showing teeth

(Chorus x3)

Don't believe you'll fear it now
Don't be fooled by your own eyes
Well even death is on our side
Don't get more, we'll rise in time
