Back in '95 when this was new

I guess I didn't have a clue  
I thought the world would change with the right song

So we picked it up and moved it out

And turned the whole thing upside down  
I told myself it wouldn't be too long

And I believed in everyone

And everything they told me

And I believed that anything

Anything was possible

Shoot the moon  
Shoot the moon

Hit or miss it makes no difference  
Shoot the moon

Back when everything was looking up  
I thought I'd never get enough

I didn't let the world obstruct my view

And we thought that it would never end  
We had our fun in spite of it

And paved the way for something slightly new

Graded On A Curve
