(Verse 1)

In case of emergency
Break this glass
And pray the alarm makes a sound
The thought is killing me
I'm here on my own
your nowhere left to be found

(Chorus)

I cant explain these memories away
I'm not going to lie to you now, should anything go
wrong
There's little that I can do now, should anything go
wrong

Please take these things, and don't come try and find
me

(Verse 2)

For your security
Please try and stay calm
Remember what we talked about
I got a hole in me
But I'm not afraid
And neither should you be for now
