I'm lost without.
I'm lost within.
I disconnect.
I'm going in.

A place where life makes sense to me.
A world where I would rather be.

I'm lost, I'm lost.
I've lost it too.
I'm lost I'm lost.
I'm lost like you.

I'm lost without my world within.
A place where I am wandering.

I feel the need, to disengage,
To lose myself, to hide my face.

I'm lost without an inch of fear.

I won't come out.
I like it here.

I'm lost without my world within.
A place where I am wandering.
I'm lost without my world within.
A place where I am wandering.

Now please don't stop creating this.

I'm ok I like it here.
This is what I long for.
This is where I meet myself.

I'm lost without my world within.
A place where I am wandering.
