"Love Lives Here"

Visit "[Love Lives Here](#)" on MotoLyrics.com

it's hard to believe that this is the place
where we were so happy all our lives
now so empty inside and feeling no pain
waiting for a hammer and a big ball and chain

they can tear it all down and build something new
but only I remember what was here
tomorrow comes easy just another day gone

how long will I have to keep returning

now I look back think I've known all the time
I've been finding myself for so long
all the vows that we made
count for old bags of lumber
disappear on the cart down the road
