A fighter plane fell
This day comes once a year
Life reappeared
They became weeds and the flowers bloomed

Why is war repeated?
We already know the ending
History can't change it
So why do you stand up?

I wish I could meet you again tonight
If I awoke from a dream, I would wish it was all a lie.
I wish I could meet you again tonight
If I awoke from a dream, I would wish it was all a lie.

Showing off discovered power is meaningless
Hate is what is born
Hate and separation
Showing off discovered power is meaningless
Hate is what is born
Hate and separation

I wish I could meet you again tonight
If I awoke from a dream, I would wish it was all a lie.
I wish I could meet you again tonight
If I awoke from a dream, I would wish it was all a lie.
