You're dead set against killing  
You'll never go to war  
Peace in our time is thrilling  
But your reality door is closed  
If you should decide to resist the draft  
That's you God given choice  
Why go thousands of miles away to kill someone with  
no voice

But think about this as it's said  
If their soldiers came here, you'd be dead  
Bullets are faster than words  
Home defense to keep our peace seems logical in our  
times  
Keep what's yours, it wasn't free  
Or be subjected to a foreign crime.
