I look up when I'm walking so the tears won't fall
And I recall all the nights making love together
Now I can't believe love's gone away
She left and broke my heart forever

I look up when I'm walking so the tears won't fall
But one by one they will come as a sad reminder
And with every tear I hear her goodbye
She left and broke my heart forever

I can't stop the rain it keeps following me
I can't seem to stop tears that fall endlessly

In this my darkest hour empty heart and toll
The passers by see me cry they've no way of knowing
That I love her still, still even though
She left and broke my heart forever, forever

Ue ah muite ooh ooh ooh ooh ooh ooh
No I can't believe love's gone away
She left and broke my heart forever

I can't stop the rain it keeps following me
I can't seem to stop tears that fall endlessly
I look up when I'm walking so the tears won't fall
But one by one they will come as a sad reminder
That I miss her still, still even though

She left and broke my heart forever
She left and broke my heart forever
Ue ah muite ooh ooh ooh ooh ooh ooh (repeat till
fade)
