Heaven is closer now today
The sound its in my ears
I can't believe those things you say
cause they echo what I fear
they're Twisting the bones until they snap
as I scream but no one knows
You'd say I'm familiar cold to touch
And then you turn and go

Feels like heaven...(heaven is closer,heaven is closer)

You See how we planned for saddened eyes
And the tears to pave the way

I fought the fever as I knew
My hair had turned to grey
I Study your face and fade the frame
Its's Too close for comfort now
We can recall the harmony
That lingered but turned sour

Feels like heaven...(heaven is closer,heaven is closer)

You wanted all that I had to give
You See me I feel, You see me I live...
