"Blind Eyes"

Close your eyes and hope for sunshine
Protect your soul and you'll survive
Pray to God in all his wisdom
It's so much safer on the other side

Blind eyes turning
Hear no, see no, speak no evil

Refugees in the colour supplement
Send a few pounds to charity
Now we're feeling so much better
Watch the rotting flesh on your colour TV

Blind eyes turning
Hear no, see no, speak no evil

Let's talk about it - No, not while I'm eating
Let's sing about it - No, please not while I'm dancing
Let's read about it - Oh, can't you see I'm sleeping?
What are you going to do about it? - Well, I'm still thinking

Waste your money on some Fad Gadget
A novelty toy for the family
Let's all play at feeling concerned
It doesn't really make any difference to me

Blind eyes turning
Hear no, see no, speak no evil

Let's read about it - No, not while I'm eating
Let's talk about it - No, please not while I'm dancing
Let's sing about it - Oh, can't you see I'm sleeping?
What are you going to do about it? - Well, we're still thinking
