I walk alone into my night  
And not a light are shining bright  
Step by step I go into my hell  
I feel like hunting animal

I hear the sounds of thousand sirens  
In this streets of violence

Every day I need my medicine  
In my prison full of gloomy dreams

[Chorus]  
Without light I drown in my agony  
Without light in this goddamned dark deep sea

My nerves send me seven signs  
Please give me back the painless times

I hear the sound of thousand sirens  
In this streets of violence

[Chorus]

I'm a fallen angel  
Can a god destroy himself  
Who is doctor tempter  
Where is doctor tempter  
And who is this man in the mirror

Feel the fire  
In my nerves  
Give me please  
Medicine

[Chorus]
