I've fed my ego  
While you fostered love  
I've felt as big as a balloon  
And desirable  
But I was full of shit  
And you knew that  
If you've contracted this  
I'll castrate myself

Mother (mother)  
Lover (lover)  
Wife and child  
My sickness  
Is your pain and sorrow  
Lunar (lunar)  
Virgin (virgin)  
Queen of witches  
Your love has rebuilt be  
Oh so hollow  
I've been using my penis like a weapon  
And not a tool  
Diana

Every time I return  
With one more confession  
My wounds, self-inflicted  
You bathed and wrapped  
Your all-forgiving nature  
I have used it  
But if you ever left me  
I'd go to pieces

Mother (mother)  
Lover (lover)  
Wife and child  
My stupidity  
Is your pain and sorrow  
Many (many)  
Breasted (breasted)  
Artemis  
Without them, there'd be

No tomorrow  
I've abused my power,  
Now I'm prostrate at your feet  
Diana  
Diana

Mother (mother)  
Lover (lover)  
Wife and child  
My lack of faith  
Is your pain and sorrow  
Triple (triple)  
Goddess (goddess)  
Mother of all peaches  
A guiding light  
That I must follow  
Now I'm looking for healing hands  
Such deeper than the flesh  
Diana  
Diana  
Diana  
Diana
