### "State of The Nation"

Visit "[State of The Nation](#)" on MotoLyrics.com

State of the nation  
A room you never use  
See yourself in power  
That sweet sick enemy  
Home is where there's danger  
Send it to your friend  
State of the nation  
A room you never use

Life begins when you're ready to face it  
I've changed my mind because I'm stuck on  
The state of the nation

I know you've got potential  
So what's your price, I'll pay it  
Consumer guide to help you  
And a cheque card just to let some (fun)  
It's time I had a wash out  
Cold storage, no more head room  
Collecting things I don't need  
In a room I never use

Life begins when you're ready to face it  
I've changed my mind because I'm stuck on  
The state of the nation
