(D. Payne)

Just close your eyes
And then give it away
Paint another black smile
On another black day
And if I had wings I'd just fly away
But I'll bounce twice harder just throw it away
Unscrew the cap I'm not just a deathwish
One more drink and I'm just another head case
Rub three times give me a taste
And I've found my real god
One fifty one
I've got my head on sack im six days on crack
Cause I can't score forward and I can't come back
Set a climitization for repeated misuse
I don't need quite as much as i sometimes use
I think that is but i can't recall
I know right now cause im lookin to fall
Yeah my hands are tyed im up against the wall
And i got no friends at all
But one fifty one
Find another way to waste my time
Fading fast but I feel just fine
Ask me way and I'll say
I found my real god
I don't care if im all alone
I don't care if i don't go home
I don't care as long as i can light up and let it go
One fifty one
Just get me drunk
Just get me high
I don't care as long as i can make it by
I got a bottle in my pocket
One too many in my head

6 pack went down only 12 minutes from dead
In a car crash scene or head on collision
Where i lost all my feelings and most of my vision
Riding much too slow on a retard bus
But this is the way that i go
One fifty one
Im on fire I'll shoot to the moon

Got no family
Got no home
And if you push too hard i just might slip
And if you stick out the plug
You know im going to trip
Yet you burn going down
Yet is stick in your throat
I smile when you cut my last ray of hope
Do you know that you hurt
Do you know you feel good
Do you know it some times
I sure wish you would
Just bring on back
And give it away
I paint another black smile on another black day
Its all i got
Its all i can say
And im gone
One fifty one
Find another way to waste my time
Fading fast but i feel just fine
Ask my why and I'll say
I found my real god
I don't care if im all alone
I don't care if i don't go home
I don't care as long as i can light up and let it go
One fifty one
One
One fifty one
Light up and let it go
One fifty one
