The stars are gonna twinkle and shine  
I mean this evenin' 'bout a quarter to nine  
My lovin' arms are gonna tenderly twine  
All around you, around a quarter to nine

I know I won't be late 'cause at half past eight  
I'm gonna hurry there, I'll be waitin' where the lane begins  
Waitin' for you on needles and pins  
And then this world is gonna be mine  
This evenin' 'bout a quarter to nine  
Get it, ah ah, oh oh

The stars are gonna twinkle and shine  
This evenin' around a quarter to nine  
Both these lovin' arms are gonna tenderly  
twine  
There around you around a quarter to nine

I know I won't be late 'cause at half past eight  
You know I'm gonna be there, I'll be  
waitin' right where the lane begins  
I'll be waitin' for you on needles and pins  
And then, then you're gonna be mine  
This very evenin' around a quarter to nine
