Whose face did I see beside me  
When I looked into  
The mirror yesterday

Whose eyes opened wide  
And who has tried  
To keep my spirits high  
Through yesterday

Who now shares my life  
And tears whenever I cry  
Who becomes my wife  
And fears the day I die

Who now knows my thoughts  
And every word I say  
She's the girl who stood beside me  
When I looked into the mirror yesterday

Who then gave her hand to me  
When I was trembling in the dark  
Just yesterday

Who then showed me all  
The nights and all the sights  
And all the lights, just yesterday

Who now shares my time  
And who now makes my bed  
Who now lies beside me  
Who now holds my head

Who knows all my thoughts  
And every word I say

She's the girl who stood beside me  
When I looked into the mirror yesterday

Whose voice did I hear  
When bells were ringing  
Silent birds that started  
Singing yesterday

Who then said, come sit beside me  
Oh, my darling, don't deny me  
Yesterday.

Who now shares my time  
And who now makes my bed  
Who now lies beside me  
When I hold my head

Who knows all my thoughts  
And every word I say

She's the girl who stood beside me  
When I looked into the mirror yesterday

Yes, the girl who stood beside me  
As I looked into the mirror yesterday
