Somewhere there has to be the other half of me,
The other half of me I've yet to meet.
One special someone
Whose heart has a similar leaning
And if she were right for me
Day and night for me
Would have meaning.
The other half of me
That unknown quantity
That unseen destiny
Could make me complete.
Is there a chart for the heart or a graph?
Will we meet on the street with a laugh?
Will we know one another,
If I ever meet my other half.
The other half of me.
