Calvin

A look that can't be understood, a heart that is like a  
needle at the bottom of the sea

Jiro

Only guessing, I feel that I have no appetite.

Fahrenheit

It's a little bit irritating yet it's mesmerizing at the same  
time.

Hebe

Not born to be romantic, response too slow  
Not discrete enough, choosing the wrong color of the  
flowers.  
But it's contradicting, I like your stupidity.

Chorus

Fahrenheit: A smile, no matter how beautiful, how  
sweet, if it's not your's, it's not special

Hebe: Tears, no matter how bitter, how salty, with your  
comfort, it's a clear day again

Fahrenheit: No matter how close, how sticky you are,  
without a hug, it's still too far.

Together: I only have feelings for you in the whole  
world.

Fahrenheit: No matter how crazy, how wild we play, one  
stare from you, I'll control myself

Hebe: No matter how wide and far the road is, as long  
as you lead, it'll be safe

Fahrenheit: I'll be good and stick close to you, and be  
gentle and considerate, and definitely not care less

Together: I only have feelings for you

Wu Zun

Gentle yet sticky, likes to cry yet docile

Arron

Naive at times, yet wicked at times

Fahrenheit

Playing hateful towards you, I can't bear to do that

Hebe

Please absorb some nutrients, let your brain balance  
Want you to appear, yet your actions are so slow

How can I admit that I am yours no matter what

Chorus

Fahrenheit: A smile, no matter how beautiful, how  
sweet, if it's not your's, it's not special

Hebe: Tears, no matter how bitter, how salty, with your  
comfort, it's a clear day again
