Blackened fists of love is this the way it's gonna be  
Is it enough? Wait for tomorrow  
Run. Hide. Deny.  
This is who I am,  
Kill. Surprise

We're falling down we're losing trust  
Blood in the return to lust

Now follow me, I follow you  
And don't believe a thing they say  
Is it enough, wait for tomorrow

Run. hide. deny  
This is who I am

I can't control  
Control running weak  
Yes I'll bleed for you  
Will you still bleed for me  
And then I promise you  
As you did once but none could see  
You take the last of my said faith

I'll take the rest and set it free.
