Failsafe
"Routines"

My mind is programmed to have a routine
My mind is programmed to have a routine, they tell me
To get myself in line but never cross it
I can't be living a lie I can't be living a dream
But I'm part of a machine and it is killing us, I am the evidence
I am part of a machine and it is killing us, I am the evidence

If I can try to wrap my arms around you
Wrap my arms around you, if only for today
It seems like I have got myself surrounded
And I can't move the mountains but cannot walk away

The system is out of control
We have a system that's out of control but you think
It isn't such a crime to rid the profit
You haven't even denied that youve been robbing us blind
And now there's no where to hide and all the warning signs
Showing that nows the time, to find excuses aside and take
Control of my life

I've always had the motivation to try
And throw myself into the light, into the light

If I can try to wrap my arms around you
Wrap my arms around you, if only for today
It seems like I have got myself surround
And I can't move the mountains but cannot hold the weight

It's our future, it's our future
In the hands of the untrustworthy
It's our future, it's our future
...
I put my trust in the world and threw my burden away
We're gonna have our say, we're gonna have our say
I put my trust in the world, I throw my future away

If I can try to wrap my arms around you
Wrap my arms around you, if only for today
It seems like I have got myself surround
And I can't move the mountains but cannot hold the
weight

My mind is programmed to have a routine
My mind is programmed to have a routine, they tell me
To get myself in line but never cross it
I can't be living a lie I can't be living a dream
