I've got a catacomb with fur covered Styrofoam  
So come over now and sleep  
Time isn't here again, wasted thoughts that could've  
been  
Now we can devise our plan

Daylight, daylight  
Daylight won't find us here

I've got a catacomb with flags that flew fifty years ago

Let sleep overcome your mind  
God isn't safe again, molest trees and chop down men  
So we must revise our plan

Daylight, daylight  
Daylight won't find us here

Daylight, daylight  
Daylight won't find us here

Daylight, daylight  
Daylight won't find us here
