Remember better times - you told me 'don't think twice'  
'We have the future on our side'  
A life in overdrive - that's what you had in mind  
But in the end it was just lies

For somewhere in that night your vision went astray  
You lost it to the streets - a dream that broke away

Talking 'bout wasted time - you do  
Talking 'bout wasted life  
When the doubts are coming through  
And the promises you've broken, coming back in rhyme  
On your mind - wasted time  
Ambitions flying high - they all were bound to die  
You never noticed moving on  
They turned into your dreams - just like some  
memories  
But now you know they've come undone.

For now the tide has turned, somewhere behind those  
Blinds  
And no one seems to know an old man left behind

Talking 'bout wasted time, you do  
Talking 'bout wasted life  
When the doubts are comin' through  
And the promises you've broken coming back in rhyme  
On your mind - wasted time

Solo

Talking 'bout wasted time, you do  
Talking 'bout wasted  
Life  
When the doubts are comin' through...
