Tried to give my trust to you  
Here I am lost and confused  
Grab me harder till theres no more faith to spill  
Fill me up with much more hate till I cant feel

Hold my hand and tell me I'll be fine  
And show me that youre not of there kind

Try to sleep now while its gone  
Feed it well it'll do no harm  
I found the door but its locked I am trapped in here  
Is the razorblade a shortcut out of here?

I cannot face you anymore  
So many times tried to play along  
Life breaks me from inside!  
Now get out of my mind!

I tried to wash of all my pain  
The dirt dosnt wanna leave my skin  
Afraid to be left behind again  
Afraid to break inside again

No! You f\*cking to see me!  
No! I f\*cking belive me!  
No i f\*ck you all I'll break you all this time im not!  
Life breaks me from inside!  
Now get out of my mind!

Hold my hand and tell me I'll be fine  
And show me that youre not of there kind  
I cannot face you anymore  
So many times tried to play along
