There is a place lost into space  
Where live mystic legends mitsy tales  
Open your mind to fantasy  
You won't believe, won't believe what you will see  
Magic and evil innocence and lies  
The wrong and the right and all that stands behind

What do i see  
Within my dream  
Deep in the corridor of time

We ride away  
Sorrow brings tears to my heaven  
Then goes far away  
Sorrow brings tears to my heaven  
And then goes far away

Now that we are riding, riding with the sun  
To the land of the miracles

To the land of the free

Now that you've seen dragons in dream  
Be aware for the legend begins  
Ride with the sun across the seasons  
March with the light as father and son  
And as the spirit of five thousand men  
The strenght in your heart will burn like a flame.

What do i see  
Within my dream

We ride away  
Sorrow brings tears to my heaven  
Then goes far away  
Sorrow brings tears to my heaven  
And then goes far away

Sorrow brings tears to my heaven  
And then goes far away
