Mourning time has worn away  
hope fulfills our dreams  
Buried in time, deep in our minds  
Heroes of our past will never fade away  
oppressed we are, slaves in the dark  
but yet we'll fight just to see another day

bridge:

Silently we cried in pain  
fear was all we would know  
Then hope came and changed us all

chorus:

Dead I was before your praise  
lost and drowned into my pain  
Now I am here back to life  
To see the sun shine again  
Ho I've waited long for another chance  
With the God's light shining in my heart  
Now that life flows in me again  
I will fight till the end of my days

Gods have been right, hearing our cries

Fulfilling what's in our dreams and our faith  
We are not bound to be the slaves of darkness  
And darkness will be failed

bridge

chorus

Time has come to break the chains of pain  
And our freedom will rejoice the heart of our cherished  
Gods  
Darkness was noxious  
in silence I went down the walls of the grave  
Free from the power of Cenos  
I prepare the time when surely comes the light divine  
Never get lost in the dark for the light we shall sing  
and be strong against the odds  
Leave me now, leave me now leave me now Leave me

alone  
Shadows, terror, we were lost in the dark

chorus x2
