Won't you come over and make love to me?
'Cause I haven't seen you in a while, really miss your
smile, ohh
Won't you come over and make love to me?
Baby, I want you

Every time we're together, I feel a special part of me
Drawing me closer, closer to you, baby
I can't explain, it's just the magic that we share
Something between us two

Won't you come over and make love to me?
'Cause I haven't seen you in a while, really miss your
smile, ohh
Won't you come over and make love to me?
Baby, I want you

Sitting here in my window
Thinking of nothing but your face, ooh baby
I try to remember how it used to be
When you used to love me, love me everyday, ooh
baby

I don't wanna fight ya, just want you to see
That you are the one, the only one that's for me
Baby, let me show ya, there's no greater love
Baby, I love you for the things you do, and I want you to
come over

Won't you come over and make love to me?
'Cause I haven't seen you in a while, really miss your
smile, ohh
Won't you come over and make love to me?
Baby I want you

I don't wanna fight ya, just want you to see
That you are the one, the only one that's for me
Baby, let me show ya, there's no greater love
Baby, I love you for the things you do, and I want you to
come over

Won't you come over? Won't you come over?

Baby, I just wanna make sweet love
I just wanna show you, you are the one

Won't you come over? Won't you come over
Baby, I just wanna make sweet love
I just wanna show you you are the one
