Fire bright, winter night  
Here with you by the tree  
Close your eyes and I'll sing to you  
This Christmas lullaby

Sweetest dreams, dreams come true  
I'll be here through the long night  
Until then, I'll sing to you  
This Christmas lullaby

All the living room windows are frozen  
The same way they were on the night  
I first drew a heart on the window  
And wrote both our names inside, inside

The house is dark, the candles low  
Everyone say goodnight  
So I'll rest your hand on my shoulder  
And I'll sing you this Christmas lullaby
