You never looked so good, as you did last night
Underneath the city lights
There walking with your friend, laughing at the moon
I swear, you looked right through me

But I'm still livin' with your goodbye
And you're just goin' on with your life

How can you just walk on by without one tear in your
eye?
Don't you have the slightest feelings left for me?
Maybe that's just your way of dealing with the pain
Forgetting everything between our rise and fall
Like we never loved at all

You, I hear you're doin' fine
Seems like you're doin' well as far as I can tell
Time is leaving us behind
Another week has passed and still I haven't laughed
yet

So tell me what your secret is baby, yeah
To letting go, letting go like you did, like you did

How can you just walk on by without one tear in your
eye?
Don't you have the slightest feelings left for me?
Maybe that's just your way of dealing with the pain
Forgetting everything between our rise and fall
Like we never loved at all

Did you forget the magic? Ohh
Did you forget the passion?
And did you ever miss me?
Ever long to kiss me?

Oh oh oh baby, baby

Maybe that's just your way of dealing with the pain
Forgetting everything between our rise and fall
Like we never loved, at all
