This is the window to my heart
I just want you to be free
There ain't no freedom where we are
There ain't no wishes in these stars
Ain't no reason to believe

But don't worry baby, yea yea
Don't you worry
Maybe this is what we need
A little bruisin', a little bleedin'
Some space that we can breathe in
Some silence in between

So cry for me baby, and I'll cry for you
And we'll both break down and we'll both break through
We'll find our way and we'll face the truth
We both will be stronger
And we'll lie down in our loneliness
And wake up with our sad regrets and
Even though we don't know it yet
We both will be stronger
We both will be stronger

I can't believe you're really gone now
But I know it's for the best
And I know that we weren't right
But I still reach for you each night
And man that hurts like hell

So cry for me baby, and I'll cry for you
We'll both break down and we'll both break through
Find our way and face the truth
We both will be stronger
And we'll lie down in our loneliness
And wake up with our sad regrets and
Even though we don't know it yet
We both will be stronger
We both will be stronger

So baby
So cry for me baby, and I'll cry for you
(Cry)

And we'll both break down and we'll both break through
We'll find our way, we'll face the truth
We both will be stronger
And we'll lie down in our loneliness
And wake up with our sad, sad regrets
Even though we don't know it yet
We both will be stronger
We both will be stronger

This is the window to my heart
I just want us to be free
Baby I'm sorry for the way things are
Goodbye is always hard
But we both will be stronger
