"Sunshine And Summertime"

Visit "[Sunshine And Summertime](#)" on MotoLyrics.com

We've got barefoot ladies and tricked out Mercedes
And people getting crazy on the boulevard
We've got classic colas and ice cold Coronas
And big pool parties in the back yard

I said "Hey, that's the way we do it
New friends and blue skies that never end
Hey, that's the way we like it
Good times, sunshine and summertime"

You'll see straw sombreros and T-top Cameros
And stereos blasting in the parking lot
You'll see rock hard bodies and bikini hotties
And everybody's got it going on and showing what
they've got

Hey, that's the way we do it
New friends and blue skies that never end
Hey, that's the way we like it
Good times, sunshine and summertime

I said, "Hey everybody, can't you feel the rhythm now?
Hey everybody, don't you want to party?
Hey everybody, can't you feel the rhythm now?
Hey everybody, don't you wanna party?"

Hey, that's the way we do it
New friends and blue skies that never end
Hey, that's the way we like it
Good times, sunshine and summertime

Hey, that's the way we do it
New friends and blue skies that never end
Hey, that's the way we like it
Good times, sunshine and summertime
Good times, sunshine and summertime
Good times, sunshine and summertime
