ABSOLUTE ZERO

(Lyrics from the Japanese KFADFFAL)

Can we being at the end to save some time?

Dead center

Point blank

Together

The clock is ticking

You have no authority here

Float like a dead man down the river

And there are no streets in this city

Et cetera is my worst enemy

It's low and I know it all will go

To the big hand of the god damned

You're here

Red dot

And now you know where not to go

The middle ground is absolute zero

What can be found at absolute zero

Can we begin at the end to save some time?

Et cetera is my worst enemy

It's low and I know it all will go

To the big hand of the god damned

The big hand of the bald man

The middle ground is absolute zero

What can be found at absolute zero

A happy end is absolute zero

Nobody wins an absolute zero

Worse than nothing

Nothing...
