Deep in the bosom of the gentle night  
Is when I search for the light  
Pick up my pen and start to write  
I struggle, I fight dark forces in the clear moonlight  
Without fear  
Insomnia  
I can't get no sleep  
I used to worry  
Thought I was going mad in a hurry  
Getting stressed, making excess mess in darkness  
No electricity, something's all over me, greasy  
Insomnia please release me  
And let me dream of making mad love to my girl on the  
heath  
Tearing off tights with my teeth  
But there's no release, no peace  
I toss and turn without cease

Like a curse, open my eyes and rise like yeast  
At least a couple of weeks since I last slept, kept taking  
sleepers  
But now I keep myself pepped  
Deeper still, that night  
I write by candlelight, I find insight  
Fundamental movement, huh, so when it's black  
This insomniac, take an original tack  
Keep the beast in my nature  
Under ceaseless attack  
I gets no sleep  
I can't get no sleep  
I can't get no sleep  
I can't get no sleep  
I need to sleep, I can't get no sleep  
I need to sleep, I can't get no sleep
