how low can you go
another one bites the dust for rock and roll
and another one down
and another one down

you remember basement shows
you would call back choices on your own
cause i don't, oh i don't
but i wish i did
but i don't

how low can you go
another one bites the dust for rock and roll
and another one down
and another one down

you remember (?) shows
you were guaranteed in the eve you'd make it home
you always made it home
but i wish i did
but i don't

cause we're a band with a business plan
we'll drive this band right off the road

you remember making fun of that band
now we're trying like hell to get on tour with them
and another one down
and another one down

never saying that, we'd never do that
now we've done it to death, never turning back
and another one down
oh and another one down

cause we're a band with a business plan
we'll drive this band right off the road

and i guess this is what you were talking about
at the last show we played at common grounds
said don't let the bastards get you down

well i fought so hard and they burned me out
and if asked if i feel like giving in
well i wish i did, but i don't

cause we're a band with a business plan
and we'll drive this band
yeah we're a band with a business plan
and we'll drive this band... right off the road
