Aaaahh!! Kick myself in gear,
I'm getting out of here and I've got to leave you behind.
Take some initiative,
it's the third stage of development and you should use
it all the time.
I'm not your father,
and I ain't your mother so set your own boundaries for
once.
You're on the couch now shooting obscenities in the
least aggressive way.

Oh love I got the best of you, not talking to each other
tonight.
Can't we just once have a good time?
You're not like this when we're alone.

We were out last night too, we counted sixteen troopers
and baby,
you ain't worth the risk. (No you ain't worth the risk)

Oh love I got the best of you, not talking to each other
tonight.
Can't we just once have a good time?
You're not like this when we're alone.
