Burning in the cold
Bursting in the bright
We lose the breeze tonight
Reading in the bold
Charming as the flies under bite
We've lost life support, overnight
Umbilical cables, medic mites
Utopia, one more ta-da, Utopia
We're on the outs with the ins
And all the needles with the pins
Burn the flame alive
Of splintered pores
Dental damn
Broken doors
Utopia, one more ta-da, Utopia
Burning in the cold
