They had to compromise without splitting hairs  
They had to quickly repair, without breaking a stare

How many died in the mudslide?  
How many sides to a pair of dice?

Bring on the poisonous candy  
Cause we're doing just dandy  
Bring on the painful reviews  
I'll agree they're completely true  
How many died in the mudslide?  
How many sides to a pair of dice?

Yo, I got this feeling like... somebody's watching me

Bring on the poisonous candy  
Cause we're doing just dandy  
Bring on the painful reviews  
I'll agree they're completely true  
Fuck you!!!
