I love it when you hit the nerve
But when you can't tell
Love to do it myself
No matter where you stand

Whether your for or against me
Always be there
Doesn't really matter
Do you really fucking care?

You think it's so hard
When it's so easy
Without your drugs, your loves, your blood
You'll die inside, your all drugged world
Is gonna six sick suck

You try so hard
When it's so easy

I'll be what you want
I'll be what they say
I'll be the righteous storm
Approach and wash them away

The more you push
Will way the closer I get
They've got a bit of luck
Who do you think'll reflect?

You try so hard
When it's so easy
This train wont look back
Without your drugs, your loves, your blood
You'll die inside, your all drugged world
Is gonna six sick suck
