Two more and I'm on my way to my liquid personality
I'll turn into a clown
No one can bring me down
Who wants to get liquefied
Scream, lets get unified
Let loose, we are justified
Now, it's time to unwind

Chorus:
Hey look it's my liquid personality
I just can't control myself
My inhibitions have all gone sailing
So, lets have another round

I've had a few and it's safe to say
That I've finally breeched reality
I'm 10 feet off the ground
No one can bring me down
Who wants to get liquefied
Scream, lets get unified
Let loose, we are justified
Now, it's time to unwind

Repeat Chorus

We're lying down though we're spinning around
This feeling is out of control
Let's get up cause we're liquefied
It's ok we're unified
We need to have just one more round

Repeat Chorus
