Pretty blue world  
Spinning in space  
Been that way since the first tear  
Rolled down Adam's face  
Man we get beat up  
Time's taken more than it's toll  
When times get this hard girl  
It's hard to take hold  
I don't wanna give up  
CHORUS  
Baby, hold on to me girl  
I'll hold on to you  
Faith, hope and love's what it takes to get through  
In this pretty blue world  
It's a pretty blue world  
Waking up to a struggle  
I don't want to face  
Ain't got a choice  
Now we're stuck in this place  
Is anybody up there  
Sometimes it's hard to believe  
Think our prayers have been answered  
We've got what we need  
When you wanna give up  
CHORUS  
Ain't much that's certain  
Between the curtains  
But as long as this world continues to spin  
No matter how blue, baby  
This much is true, baby  
Faith hope and love  
Baby  
Hold on to me girl  
When it gets cold  
Do I have your love  
That's all I need to know  
In this pretty blue world  
It's a pretty blue world  
-----
