Behind the dark walls  
dark secrets hide in the shadows  
An coil presence  
in the fortress of light  
Darkness is falling  
as the spirit iof god slips away  
You're a sinner by night  
and a holy saint by day

In the sacred corridors evil is set free,  
lurking among the shadows of the mnastery  
Hersey in Disguise  
Hersey in Disguise

His eyes glow like fire  
as he turns the ancient pages  
Discovering mysteries  
not revealed in many ages  
Brother William, brother of sin  
What do you do as the sun descends?  
Beware of what you might see  
as you open the door  
to the beast
