It is with joy that I greet you
Come inside and taste what's served for you
Food does not lack, neither does wine

Action or fate
Let's stir the mighty cauldron
Love versus hate
By the scepter of deception
By the scepter of deception

Toast for you
And your glorious kingdom
The home of heroes since early days

Toast for us
And the newborn friendship
It will now lead us on our way

When the night became morning
The fire was no more, just a red glow
Down from the stairs the guards did descend

Action or fate
Let's stir the mighty cauldron
Love versus hate
By the scepter of deception
By the scepter of deception

Action or fate
Let's stir the mighty cauldron
Love versus hate
By the scepter of deception
By the scepter of deception

Storming in upon us in the night
What is this supposed to be?
Give me my sword and I'll

Our swords are useless here and now
So give up this pointless fight
Doomed is our fate tonight

Ease this burden for I cannot bear it
When dark shadows upon my soul play
Can't look into the future
As my eyes see not the light of day

Maybe you remember the game you played
Me and my queen years ago?
Now it's my time to play

Who is laughing so evil?
It's the queen behind the walls of greed
What cruel deed has she now done?

Action or fate
Let's stir the mighty cauldron
Love versus hate
By the scepter of deception
By the scepter of deception

Action or fate
Let's stir the mighty cauldron
Love versus hate
By the scepter of deception
By the scepter of deception

Action or fate
Let's stir the mighty cauldron
Love versus hate
By the scepter of deception
By the scepter of deception

Action or fate
Let's stir the mighty cauldron
Love versus hate
By the scepter of deception
By the scepter of deception
