Submit or Rebel?

Submit or Rebel?

Where's the beat where's the beat where's the beat?

Submit or Rebel?

Submit or Rebel?

Where's the beat where's the beat where's the beat?

Just like as if nothing happened.

You break a smile and you show your intentions

You never said it was not a fucked up state.

No, you just lied in the first place.

And we believed everything you said.

My brain's on overdrive and I'm bent.

And how you'll show us that the opposition's records
are poor.

Like you are so cool, like you are so cool.

What is at stake and what's all the passion (you want)?

Is it to hold my tongue or to scream my lungs out?

A name on a bench, a walk on a wild side

An answer for all, it is almost impossible

We're going to bring you down,

We want to show the world what you are about! (wrap
up wrap up and leave)

So why don't you just step aside

A reminder of the past is played out loud!

The world's best stories are beautiful lies

So now sell it to the masses!

A look so deep, that I could die

Another order for a casket

I seems we waited for an honest treason

Medicate the poor with bribes, it is simple

And you can lock me up and tie me down

But you won't break me

No you won't break me
