Blindfold so can't feel
maintainance
Kickback art thou that thick?
Death of the
dimwits
Businessman hits train
Businessman hits
train
His veiled sex seeps through his management
sloth
The journey takes one hour
And it's a hexen
hour
Hexen school
Hexen cursed
Hexen bowl boils
Hexen rule
Explain the mood harm
The ddr scene
Alpine
pullovers
Alpine give over
You can clutch at my toes
You will drive me insane
You know nothing about it
It's not your domain
Don't confuse yourself with someone who has something to say
Cause it's a hexen rain
Hexen fodder
Hexen cursed
Hexen bowl boils
Hexen rule
explain the mood harm
While greenpeace looked like saffron on the realm
Brown, shrivelled
A kellog?
peace
The opposition was down
Red church on a hill
Red church on a hill
Styrofoam insides
Aluminium tiers
Louis armstrong tapes waft down the aisles
And it's a hexen hour
Hexen file
Hexen rule
Hexen bowl boils
Hexen rule in the hour of the fall
It takes grace to play the second fiddle well
His cap emblazoned a crusty knife
[live only one,] was these you ate
Goes with you down, and pats your head
That's strife knot
Strife ker-not
Strife is life and don't forget it
Strife is life, you don't wanna hear it
Could be thirteen or thirty one of this mob
Could be thirteen or thirty one of this mob
Strife knot
Strife ker-not
Life is strife but you don't wanna hear it
Strife is life and that's it
And that's it, and that's it
And that's it
The following from sinister times:
Our pine pullovers
You can clutch at my toes
You will drive me insane
You know nothing about it
It's not your domain
Don't confuse yourself with
Someone who has something to say.
That green peace looked like saffron on the realm
Brown, dishevelled
A kellogs home
Red church on a hill
Styrofoam inside
Aluminum tiers
Louis armstrong tapes waft
Down the aisles
Synthesized
That's strife knot
It takes grace to play the
Second fiddle well
Life is strife, don't forget it.
Life is strife and I said it
Strife is life, but you don't
Want to hear it.
Biggest bed holds the mask of death
