A flat season - vision gone
Picture frame it, and say so long;
My aqua-cat is where it's at and new to mammal range
Buy you know it would never suit, territories alpine
In these times - meeowww
In these times - fishcat mother
In this time - spectral filter
In these times - a feline nutter
In these times; A man down south, he did go out and he did kill fifteen
What the papers could not grasp or work out, was his life
In a flea brain; In these times - universal tepid
In these times - stagnant mind
In this time - and in these times
These times - they're both the same
Diluted jesuits pour out of mutual walkmans
From elland road to venice pensions and down
The autobahns; In this time - if that's it I'm leaving
In these times - leave this planet fast
In these times - it affects my sleeping
In this time - my dreams are one to miss
Ones to be avoiding
In times like this I often hope in days ahead my gossamer front gates,
Will keep out the trash in which my psychic streets? emershed;
In these times - spectral filter
In these times - in your midst
In these times - this song's a belter
In this time - for times like this
In these times - I picture framed pre-teen rap gangs,
With alsatians, scapa flow steel became
Inexpensive
A first season - vision gone
Picture frame it - and say so long
They say ? give up buster? - cram it down
But I grow stronger, and break their mids
zzzzzzzzzz
